It is to enable the student to acquire a finished technique and to obviate the difficulties that may arise through home practice. This book contains the fundamental principles of the Birth of the Dance in a condensed, complete and comprehensive form. It contains authentic answers to the numerous questions which have been asked by the students of the Newman Normal School of Dancing during many years of my practical teaching, and are given in accordance with the Newman System of Dancing, which is based upon the foundation of the French, Italian, Russian and Greek Schools. The various subjects have been alphabetically arranged in a practical form for teachers in preparing their examinations. This Text Book further embodies valuable information which has been obtained through diligent study with the most renowned European Masters and through personal research and experience.
