

What's Your Evidence?: Engaging K-5 Children in Constructing Explanations in Science (Mixed media product)

Filesize: 2.74 MB

Reviews

It is a single of the most popular ebook. Better than never, though I am quite late in starting reading this one. You will not feel monotony at any moment of your own time (that's what catalogs are for about when you request me).

WHAT'S YOUR EVIDENCE?: ENGAGING K-5 CHILDREN IN CONSTRUCTING EXPLANATIONS IN SCIENCE (MIXED MEDIA PRODUCT)

[DOWNLOAD](#)

Pearson Education (US), United States, 2012. Mixed media product. Book Condition: New. 229 x 185 mm. Language: English . Brand New Book. By providing a variety of strategies, scenarios, student samples, classroom video clips from across all science content areas, rubrics, and guidelines this book provides teachers with the tools to successfully support young scientists to use evidence to construct scientific explanations. With the view that children are capable young scientists, authors encourage science teaching in ways that nurture students curiosity about how the natural world works including research-based approaches to support all K-5 children constructing scientific explanations via talk and writing. Grounded in NSF-funded research, this book/DVD provides K-5 teachers with a framework for explanation (Claim, Evidence, Reasoning) that they can use to organize everything from planning to instructional strategies and from scaffolds to assessment. Because the framework addresses not only having students learn scientific explanations but also construct them from evidence and evaluate them, it is considered to build upon the new NRC framework for K-12 science education, the national standards, and reform documents in science education, as well as national standards in literacy around argumentation and persuasion, including the Common Core Standards for English Language Arts (Common Core State Standards Initiative, 2010).The chapters guide teachers step by step through presenting the framework for students, identifying opportunities to incorporate scientific explanation into lessons, providing curricular scaffolds (that fade over time) to support all students including ELLs and students with special needs, developing scientific explanation assessment tasks, and using the information from assessment tasks to inform instruction. ABOUT THE VIDEO All of the video clips associated with this text were filmed in elementary grade classrooms in central, rural Pennsylvania. None of the lessons were staged or scripted. The video was not professionally recorded or produced given that our aim...
