Reviews

Certainly, this is actually the very best job by any author. it was writtern very flawlessly and beneficial. I found out this publication from my dad and i recommended this ebook to discover.
(Magali Robel)

OMNIVORE

Mundania Press LLC, United States, 2014. Paperback. Book Condition: New. 201 x 124 mm. Language: English . Brand New Book ***** Print on Demand *****.Three scientists came to the mysterious planet Nacre to discover, to explore, to record. Utterly defenseless, they trekked through the grotesque jungle of multiform mushrooms and dense spore-clouds, hoping to unlock the secret of this strange world. The stunning climax of their mission was just the beginning of a complex drama in which their survival-and return to earth-could spell the extinction of humanity. *** Eighteen space explorers had died or disappeared on Nacre, a planet dominated by mushrooms, spore-clouds, a dim sub, and strange one-eyed creatures called mantas. To this forbidden planet came three more scientists to explore, discover and record. They barely understood what their mission was, and the significance of the mantas they were able to bring back with them to Earth. Subble, a government investigator, was sent to interview them-to learn how they succeeded where many others before them had failed. Subble was a very particular kind of investigator--one who could be judgmental without bias, who could kill without guilt, whose only real job would be, eventually, to die in a job well done. He couldn't know when that eventuality would arrive. He could only keep trying. The trio of scientists he confronted was indeed strange: Veg, the brawn of the group was a vegetarian. Aquilon, the beauty, ate everything-she was an omnivore. Cal was the brains of the crew. His emaciated body could only survive by drinking the blood of animals . a carnivore. Just as the three of them discovered one another's dark secrets, Subble was able to learn the true meaning of the relationship between Aquilon, Veg and Cal.between omnivore, herbivore, and carnivore-and the effect they had on...
