Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1874 edition. Excerpt: .after the vomiting, followed by large quantities of magnesia mixed with water. The best known antidote for arsenic is hydrated sesquioxide of iron, a preparation somewhat similar in composition to the yellow-coloured rust, which forms when iron is fully exposed to water and to air. Corrosive sublimate, sugar of lead, copper, and some other common mineral poisons, produce symptoms more or less like those of arsenic, and are to be treated in the same way. When vitriol, or any other concentrated mineral acid, has been taken in poisonous doses, the best antidotes are chalk, soda, or soapsuds. In poisoning by prussic acid, a teaspoonful of sal volatile in a glass of water should be given immediately. List Of Medicines. The following list includes almost every medicine that is likely to be required for ordinary use. Ammonia Liquor. Blister Liquid. Camphor. Chalk, Prepared. Chalk Powder, Compound....

Reviews

The most effective pdf i possibly read. It is amongst the most amazing publication i actually have go through. You are going to like the way the author publish this pdf.

-- **Chelsea Durgan PhD**

I actually started off looking over this pdf. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.
